BOOKYOURPET

UI/UX Designer | Calabasas, CA

- Lead design of all major features and flows. This includes building support for appointment booking, team management, service management, promotions, and more. Branding is out of scope
- Provide deliverables including prototypes, proof of concept documents, wire frames, user flows, use cases by using Figma
- Designed a responsive end-user website for the pet owners by reusing the existing B2B web booking flow and Bootstrap component
- Redesign customer-facing mobile app keeps the most legacy flow
- Collaborated with another designer, product, engineers to constantly improve our design decisions and build a consistent experience across multiple platforms
- Designed business profile based on our branding and marketing team request
- Conducted usability testing with our team
- Conducted interviews, competitive research, design explorations, and strategic analysis with our stakeholders
- Designed date picker with a multi-selection feature for B2B App and end user site
